Panjim the capital city of Goa has established itself as a city of learning, art and literature that opinionates for the whole of Goa. Every international and national event is scheduled in and around Panjim.

Fortunately the Students Centre Miramar (SCM) in Panjim, Opposite Law College is ideally located to represent the interests of the community. The Students Centre Miramar has been in the fore-front of furthering the cause of Islamic knowledge and culture. The centre hosts “House of Wisdom” - the only multi-lingual Islamic book store in Goa. Since its establishment, it has been promoting the understanding of Islamic civilization among fellow citizens. “Harmony” Islamic Exhibition hosted by House of Wisdom was a successful event in promoting Islamic literature and traditions.

One of the primary roles played at Students Centre Miramar is the facilitation of the Weekend Islamic Classes for children and the orientation of Muslim women and girls. The popularity of the activities such as monthly lecture series and round table discussions on the issues of the community and society has attracted many to the Student Centre Miramar. The potential for projecting SCM as an Islamic centre for the study of the Philosophy of Life and Human behavior is immense.

Through the following pages allow us to share a glimpse of the proposed” Darul Arqam”- Centre for study of Philosophy of Life and Human Behavior.

The global village opens the doors of success to those who keep abreast with the pace of development and adopt means and methods that enable them to share their perspective of life. The world is today well equipped with technology and has benefitted maximum through global networking of institutions and organizations. Institutions that visualized the potential benefits of dissemination of their policies, programs and knowledge have dominated and influenced the life of the people.

The Islamic way of life has played a crucial role in influencing the thoughts of the world but unfortunately its contribution to the world has not been communicated. The “Darul Arqam”- Centre for Study of Philosophy of Life and Human Behavior intends to contribute to the current global effort at presenting the philosophy of life of the Islamic world.

The Quran Grand Pavilion:

The World in spite of all the natural richness and technological advances has not been able to realize the potential happiness of life. The world is far at ease from the desired enlightenment and human development and at the same time the existence of divine guidance amidst us but yet unexplored will weigh heavily against the Muslims. The Quran embodies the epitome of human thought and success and for it to be inaccessible to the people of the world in this age of communication is intolerable. In sha Allah the Quran Grand Pavilion is a conscious effort to make

Quran accessible to all souls seeking the true philosophy of life. Translations of the Quran in national and international languages, Quran in print and digital format, Quran to read and Quran to listen, Quran explanations and commentary by renowned authors, Quran learning tools for beginners and researchers, Quran discourses and video conferencing with scholars of Quran is the vision at Quran Grand Pavilion

The Revered Souls (Peace Be Upon Them)

The Prophets Gallery:

The contributions of the revered souls (pbuh) who appeared at different times and era guiding mankind in righteousness needs to be studied to grasp the methodology of the reform movements initiated by them and that which concluded at the advent of Prophet Muhammad(pbuh).

The last in the chain of Prophets, the noble soul Muhammad (pbuh) who changed the world and refined its ways of approach and attitude to life touches the life of every human knowingly or unknowingly. He has inspired generations and

restored the lost dignity of human life. The man who cared for the uncared, bestowed respect to those undignified, taught manners to the manner less and honored and protected the women from all forms of exploitation. Prophet Muhammad (pbuh) held the torch of enlightenment high up for all to benefit. The Prophets gallery aims to facilitate the contribution of the Prophet to human life and unveil his life to every human in search of exemplary life model . Insha Allah the Prophets Gallery will host books in all the languages of the world on the different aspects of his life by authors from across the world. Technology will be used to connect scholars and institutions researching the life of the Prophet. The gallery will enable the guest to be touched by the serenity of the life of the Prophet.

Oasis of Islamic History & Heritage:

The history and heritage of the Muslim world is vast and spreads across the globe from Tashkent to Istanbul and from Indonesia to Morocco and more. The diversity of cultures united by a common creed and belief has many great secrets for the mind that studies the richness of thought and cultural practices. The desire to explore and study the heritage sites at the click of the button is a better option in the absence of other viable means. At the Oasis insha Allah you will get an opportunity to experience the history of the Muslim world using e-books and global networking of heritage sites. At the touch of the finger, the visual treasures of the heritage sites will unlock themselves giving the glimpse of Muslim history.

The Congruence of Islamic Centre's:

Many great institutions and Islamic Centre's across the nation and the world have been doing yeomen services in the field of intellectual and social–religious development of the Muslim world. Many of these centre's are unconnected and unaware of each other's field of expertise. The connectivity and one-stop information of publishing houses, Islamic libraries, research institutions, educational centurms, cultural and information houses and other reputed socio-religious organizations including scholars of the Muslim world in the country and across the world will insha Allah help to fulfill the role of facilitating logistics support on issues of concern to humanity.

The Solace for the Soul:

The quest of the soul to find the balance between the temporal world and the eternal life has not ended but for those who quenched it with the fountain of Islam. The meandering of mankind bereft of divine guidance and enlightenment has brought untold miseries to the otherwise beautiful gift of life. At the solace for the soul, each willing soul will insha Allah find counsel for the umpteen sorrows and difficulties of life. Here the soul shall find the calmness and maturity of thought to battle the struggles of anxiety and mysteries of life. The words of wisdom and advice in the Quran and the persuasive and

convincing gems from the life of Prophet will guard the seeking soul. In the garden of patience and forbearance will insha Allah the impatient soul of the 21st century find the spring of life and solace. Quran discourse and Prophetic precepts will bolster the frail soul to uphold the dignity of life. At the solace every individual thirsting for guidance will find his way to the right path of life.
